

From the desk of Mr. Henkel:

We have been having a great summer so far. We have been seeing many new faces in the school helping our school grow. Our current students are progressing greatly with the availability of more classes. We have also had a lot of students commit to the Black Belt Team and earn their blue uniforms.

I would like to take this opportunity to inform you that Karate America Wisconsin Rapids is going to be implementing and enforcing some new policies starting in August.

1- If a student is 10 minutes late or later for class they will be allowed to take class but they will not receive credit for that class.

2- If a student does not have their full required uniform (belt, pants, uniform top or t-shirt when allowed) in class they will be allowed to take class but they will not receive credit for that class.

Karate America Wisconsin Rapids is also in the process of developing a performance/demonstration team. Special Forces will continue to be our elite team. Special Forces will perform at every demonstration opportunity throughout the year. The new team will focus on performing at Kids Fest, Lunch by the River, and the Cranberry Fest parade along with developing skills that are required to become a Special Forces Team member. The new team will be the precursor for those who want to become a Special Forces member. More information will be published soon once the development process is complete and everything is finalized.
